

PRAY FOR AGNES

Please pray for Agnes, WOW Uganda's Project Leader who is currently in hospital in Kampala with a bacterial infection and severe arthritis pain.

Pray that the infection will be successfully treated, that she will find relief from pain, and that she will be restored to good health.

And please pray for Helen, who is taking over Agnes' responsibilities whilst she is in hospital. Pray for grace, strength and wisdom for her as she manages the Project.

Thank you for standing with us in prayer for Agnes, Helen and the whole team in Uganda.
